

KLEIN[®] TOOLS PRODUCT PERFORMANCE SHEET

Klein Tools Cooling Helmet Liner and Cooling Headband are made of performance fabric with cooling technology that enhances the natural process of evaporation. They are machine washable and reusable with chemical free fabric and cooling technology that does not wash out. They remain soft when wet or dry.

Cooling Helmet Liner
(Cat No. 60181)

Cooling Headband
(Cat No. 60182)

- When the Cooling Helmet Liner and Cooling Headband is activated with water, they cool to 30-degrees below average body temperature in under 30 seconds.
- Activate quickly in 3 steps: Wet it, Wring it out and Snap it.
- They stay cool for up to 2 hours so that you can comfortably stay active longer.
- To reactivate, just re-wet and snap.
- These products are machine washable, and reusable with permanent chemical-free fabric cooling technology that will never wash out. It also provides UPF 50 protection from the sun.
