

HEATED GLOVE LINERS

HeatTek™

**KLEIN
TOOLS®**

HEATED GLOVE LINERS

Klein Tools Heated Glove Liners (60795) are designed to be worn under work gloves to provide warmth to the hands when working in the cold. Featuring low and high heat settings, these low-profile flexible liners help maintain high dexterity and provide focused heat via optimally selected zones around the fingertips, outer hand and wrist area. Powered by replaceable rechargeable batteries for extended warming time.

**STRETCHABLE AND
BREATHABLE SPANDEX FABRIC**

**TOUCHSCREEN
COMPATIBLE**

**DESIGNED TO FIT UNDER KNIT-
DIPPED, LEATHER OR GENERAL
PURPOSE WORK GLOVES**
