Visual and audible indicators clearly identify correct circuit breaker
ET310 is a digital circuit breaker finder used to locate the correct circuit breaker in a panel to which an electrical outlet or fixture is connected. The transmitter is connected to the electrical outlet or fixture in the circuit while the receiver is used to scan the breakers in the circuit breaker panel. Transmitter includes an integrated GFCI outlet tester.

- **Visual & Audible indications** clearly identify correct breaker
- **90 - 120V AC** operation
- **Test GFCI devices**
- **Transmitter incorporates a GFCI outlet tester** to inspect the wiring condition at the electrical outlet and test GFCI devices
