NON-CONTACT VOLTAGE TESTER
WITH INFRARED THERMOMETER

NCVT-4IR

12 - 1000V AC

°F  °C
-22° – 482° F
-30° – 250° C

TOUGH METER

KLEIN TOOLS
For Professionals... Since 1857
The **NCVT-4IR** provides non-contact determination of AC voltage in cables, cords, circuit breakers, switches, outlets, and wires; as well as Infrared (IR) thermometer measurements making it the perfect choice for HVAC professionals.

- Detects AC voltage from 12 to 1000 V with visual and audible indicators
- IR thermometer with user selectable °F / °C from -22 to 482°F (-30 to 250°C)
- Convenient laser acts as a laser pointer; also helps target IR temperature measurement
- Auto Power-off conserves and extends battery life
- Screw-thread battery cap with O-ring ensures water and dust resistant ingress protection
- Lightweight, compact tool with pocket clip provides easy storage and quick access

---

**Infrared (IR) Thermometer**
- with 4:1 distance to spot ratio

**Laser**
- Use as a laser pointer or to help target IR temperature measurement

**IR Button**
- press and hold to take temperature reading. Press and hold IR button and NCV button to change to Celsius (°C)

**NCV Button**
- turns on and off the Non-Contact Voltage Tester. The tip will illuminate blue with a single beep when on and double beep and stop illuminating when off.

**Battery Cap**
- with O-Ring provides tight water and dust resistant seal to protect batteries

**Pocket Clip**
- for easy viewing in low light

**Non-Contact Tip**
- A high intensity, bright red LED illuminates and a warning tone sounds when voltage is detected.

**Backlit LCD Screen**
- for easy viewing in low light

---
