New Diagonal-Cutting Pliers for Rebar Work

Designed for the professional ironworker, Klein's new diagonal-cutting pliers for rebar work is the tool for cutting soft annealed rebar tie wire. Features such as a 9" (229 mm) hooked handle and high-leverage design provide improved grip and 36% greater cutting power. Induction-hardening provides long life for the cutting knives and a hot-riveted joint delivers smooth action and no handle wobble.

Features

Induction-hardened cutting knives for long life.

High-leverage design for 36% greater cutting power.

Plastic-dipped handle for comfort and ease of identification.

Hooked handle for improved grip.

Made in U.S.A.

Angled head design for easy work in confined space.

Hot-riveted joint for smooth action and no handle wobble.

⚠ WARNING:

- Always wear approved eye protection.
- NOT insulated. Plastic-dipped or slip-on plastic handles are NOT intended for protection against electrical shock.
