

Chicago® Grip Coated Guy Wire with Chain

This Chicago Grip is designed specifically to work with coated guy strand and EHS cable. Klein grips are made of drop-forged, quality US steel and heat treated for strength and durability. The chain, toggle and shackle keep the grip from falling off the cable. The 5-Inch jaw length increases the surface area contact with the cable minimizing cable damage. The sawtooth jaw profile resists galvanization build-up.

Specifications

Type:	Chicago Grip	Application:	Wire Pulling
Special Features:	Equipped With a Chain, Toggle and Shackle	Overall Length:	13.3" (33.8 cm)
Overall Height:	2.5" (6.4 cm)	Overall Width:	7.6" (19.3 cm)
