

Ratcheting Crimper, 10-22 AWG - Insulated Terminals

The full-cycle Ratcheting Crimper crimps 10-22 AWG insulated wire terminals. This tool features three crimping cavities in one tool with color-coded wire markings for three size ranges of insulated terminals. Crimper design provides low effort to crimp while maintaining a high terminal pull-off force. Built-in ratchet ensures full-cycle crimping for a uniform crimp every time. Compound lever-action of narrow-span handles puts more crimping power into each squeeze. Comfort grips help reduce hand fatigue.

Specifications

Type:	Ratcheting Crimper	Application:	Wire Crimping
Special Features:	3 Crimping Cavities	Material:	Steel
Handle Color:	Red, Black	Handle Finish:	Dual-Material
Cable Size:	Front Cavity: 22-16 AWG Insulated Terminals; Mid Cavity: 16-14 AWG Insulated Terminals; Rear Cavity: 12-10 AWG Insulated Terminals	Connector Type:	Insulated
Overall Length (Inch):	9	Overall Length (cm):	22.9
Overall Height (Inch):	0.09	Overall Height (cm):	0.2
Overall Width (Inch):	3	Overall Width (cm):	7.6
Weight (lb):	1.3	Weight (kg):	0.6
