

Wood Boring Bit Replacement Shaft

Far superior to auger bits, these Wood Boring Bits allow you to easily change direction when drilling holes to modify the hole size. New low-torque design greatly reduces the wrist fatigue because from standard auger bits. This replacement shaft works for 7/8-Inch, 1-1/8-Inch and 1-3/8-Inch (22 mm, 29 mm and 35 mm) bits.

Specifications

Material:	Steel	Hole Diameter:	3/8" (1 cm)
Shaft Diameter:	0.375" (1 cm)	Shaft Length (Inch):	6
Shaft Length (cm):	15.2	Hex End:	5/16"
Weight (oz):	3.5	Weight (g):	99
