

Knee Pad Compression Sleeve M/L

Klein Tools' Knee Pad Compression Sleeves are designed for workers needing the benefit of compression on or off the jobsite. The neoprene foam knee pad provides additional comfort while kneeling on sore and tired knees during the workday. The compact, low-profile design easily fits under clothing, while the anti-slip silicone grip on the top cuff keeps the sleeve in place during use. Both breathable and supportive, the durable knit material is comfortable for all-day wear. Machine washable and sold in pairs.
