

## Folding Tool, 24" (610 mm)

The Klein Tools 24-Inch Folding Tool provides you with 2 folding depths. This tool bends 3/8-Inch on 1 side and bends 1-Inch on the other. The 3/8-Inch depth is ideal for bending drive cleats on duct work. The 1-Inch depth helps to fold plenums, register boots, trunk line end caps and joist panning. This folding tool is made out heavy-duty 16 gauge steel.
