

1 Man Wall Assembly, Rail System

The Bucket Work Center is an ecosystem that will revamp the way a Lineman works. It allows Lineman to customize their workspace, just like other professionals customize their office space. The 1 Man Wall Assembly Rail System was designed for the standard 1 man aerial bucket. This will be the Lineman's office. The Bucket Work Center easily connects to aerial buckets with a standard 2-Inch or 3-Inch (5.1 or 7.6 cm) bucket lip. Is made of impact resistant materials with dielectric properties to withstand all work conditions from -25 to +125 degrees F, 1000V to 35kV. An assortment of modules are available to customize each workstation to fit the tools needed for the job.

Specifications

Type:	Ecosystem for Lineman Utility Buckets	Application:	Utility
Special Features:	Easily Attaches to Utility Buckets with Quick Release and Adjustable Clamps	Overall Length (Inch):	19.27
Overall Length (cm):	48.9	Overall Height (Inch):	15.94
Overall Height (cm):	40.5	Overall Width (Inch):	4.4
Overall Width (cm):	11.2	Material:	UV Resistant PVC
For Use With:	Bucket Work Center Rail System Modules	Weight (lb):	9.4
Weight (kg):	4.3
