

1.5 Man Wall Assembly, Rail System

The Bucket Work Center is an ecosystem that will revamp the way a Lineman works. It allows Lineman to customize their workspace, just like other professionals customize their office space. The 1.5 Man Wall Assembly Rail System was designed for the standard 1.5 man aerial bucket. This will be the Lineman's office. The Bucket Work Center easily connects to aerial buckets with a standard 2-Inch or 3-Inch (5.1 or 7.6 cm) bucket lip. Is made of impact resistant materials with dielectric properties to withstand all work conditions from -25 to +125 degrees F, 1000V to 35kV. An assortment of modules are available to customize each workstation to fit the tools needed for the job.

Specifications

Type:	Ecosystem for Lineman Utility Buckets	Application:	Utility
Special Features:	Easily Attaches to Utility Buckets with Quick Release and Adjustable Clamps	Overall Length (Inch):	22.77
Overall Length (cm):	57.8	Overall Height (Inch):	15.94
Overall Height (cm):	40.5	Overall Width (Inch):	4.4
Overall Width (cm):	11.2	Material:	UV Resistant PVC
For Use With:	Bucket Work Center Rail System Modules	Weight (lb):	11.3
Weight (kg):	5.1
