

## Tool Apron Module, Rail System

The Bucket Work Center is an ecosystem that will revamp the way a Lineman works. It allows Lineman to customize their workspace, just like other professionals customize their office space. This will be the Lineman's office. The Bucket Work Center easily connects to aerial buckets with a standard 2-Inch or 3-Inch (5.1 or 7.6 cm) bucket lip and is made of impact resistant materials with dielectric properties to help stand up to the toughest work environments. An assortment of modules are available to customize each workstation to fit the tools needed for the job. The Klein Tools Tool Apron Storage Module has multiple slots to accommodate a wide variety of Lineman tools.
