

Smooth Retractable Chalk Reel, 100-Foot, with Blue Chalk Refill

Klein Tools Cat. No. CHLK100S 100-Foot Chalk Reel features an advanced 6:1 gear ratio which significantly reduces downtime between marking tasks. The chalk level window allows users to monitor chalk levels without opening the tool, while the twist-lock top prevents chalk from spilling. The quick-release spool clutch button enables rapid line extension and the nested hook design keeps the hook flush against the reel body to prevent tangling during transport.
