

Non-Contact Voltage Tester with Signal Strength, 12-1000V AC

The Non-Contact Voltage Tester detects 12-1000V in wires, outlets, and more. Its bar graph LCD displays signal strength, lighting more bars as voltage increases or the detector nears the source. A 3-Color LED tip (blue, red, green) and an adjustable audible alert provide clear feedback. The backlit LCD ensures visibility in any light, while the slim pocket clip keeps it secure and easily accessible for everyday use.

Specifications

Type:	Non-Contact Voltage Tester	Application:	Non-Contact Detection and Testing of AC Voltage
Special Features:	Signal Strength Bar Indicators, LED and Audible Beep Indications, Auto-Power Off, Pocket Clip	Material:	Polymer Body and Electronic Components
Drop Protection:	6.5' (2 m)	Voltage:	12 - 1000V AC
Frequency:	50 - 500 Hz	Pollution Degree:	2
Ingress Protection:	IP54	Standard:	Conforms to UL STD. 61010-1, 61010-2-030; Certified to CSA STD. C22.2 No. 61010-1, 61010-2-030
Working Temperature:	32°F - 122°F (0°C - 50°C)	Included:	Tester, Batteries
Batteries:	2 x AAA	Battery Life:	142 Hr
Overall Length (Inch):	5.8	Overall Length (cm):	14.7
Overall Height (Inch):	1.2	Overall Height (cm):	3
Overall Width (Inch):	1	Overall Width (cm):	2.5
Weight (oz):	1.97	Weight (g):	56
